SMARTCENTRES®
REAL ESTATE INVESTMENT TRUST

Forward Looking Statements

Certain statements in this document are "forward-looking statements" that constitute forward-looking information (within the meaning of Canadian securities laws) and that reflect management's expectations regarding the Trust's future growth, results of operations, performance and business prospects and opportunities. More specifically, certain statements including, but not limited to, statements related to SmartCentres' expectations relating to cash collections, SmartCentres' expected or planned development plans and joint venture projects, including the described type, scope, costs and other financial metrics and the expected timing of construction and condominium closings and statements that contain words such as "could", "should", "can", "anticipate", "expect", "believe", "will", "may" and similar expressions and statements relating to matters that are not historical facts, constitute "forward-looking statements". These forward-looking statements are presented for the purpose of assisting the Trust's Unitholders and financial analysts in understanding the Trust's operating environment and may not be appropriate for other purposes. Such forward-looking statements reflect management's current beliefs and are based on information currently available to management.

However, such forward-looking statements involve significant risks and uncertainties. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements, including risks associated with potential acquisitions not being completed or not being completed on the contemplated terms, public health crises such as the COVID-19 pandemic, real property ownership and development, debt and equity financing for development, interest and financing costs, construction and development risks, and the ability to obtain commercial and municipal consents for development. These risks and others are more fully discussed under the heading "Risks and Uncertainties" and elsewhere in SmartCentres' most recent MD&A (hereinafter defined), as well as under the heading "Risk Factors" in SmartCentres' most recent annual information form. Although the forward-looking statements contained in this document are based on what management believes to be reasonable assumptions, SmartCentres cannot assure investors that actual results will be consistent with these forward-looking statements. The forward-looking statements contained herein are expressly qualified in their entirety by this cautionary statement. These forward-looking statements are made as at the date of this document and SmartCentres assumes no obligation to update or revise them to reflect new events or circumstances unless otherwise required by applicable securities legislation.

Material factors or assumptions that were applied in drawing a conclusion or making an estimate set out in the forward-looking information may include, but are not limited to: a stable retail environment; a continuing trend toward land use intensification, including residential development in urban markets and continued growth along transportation nodes; access to equity and debt capital markets to fund, at acceptable costs, future capital requirements and to enable our refinancing of debts as they mature; that requisite consents for development will be obtained in the ordinary course, construction and permitting costs consistent with the past year and recent inflation trends.

Non-GAAP Measures

The non-GAAP measures and ratios used in this document, including but not limited to, AFFO, AFFO per Unit Payout Ratio to AFFO, Unencumbered Assets, NOI, Debt to Aggregate Assets, Interest Coverage Ratio, Unsecured/Secured Debt Ratio, FFO, FFO per Unit, do not have any standardized meaning prescribed by International Financial Reporting Standards and are therefore unlikely to be comparable to similar measures presented by other issuers. Additional information regarding these non-GAAP measures is available in "Presentation of Certain Terms Including Non-GAAP Measures", "Non-GAAP Measures", Section IV – Business Operations and Performance – Results of Operations – Adjusted EBITDA, and Other Measures of Performance in the Management's Discussion and Analysis of the Trust for the three and six months ended June 30, 2026, dated August 6, 2026 (the "MD&A"), which sections are incorporated by reference. The MD&A is available on SmartCentres' website, smartcentres.com, and SEDAR, www.sedarplus.ca.
